Deposit of £200 by **Friday 12th July!**

Total cost of the Trip is **£650.**

If there are too many students, we will draw names out of a hat!

Testimonies from students:

Alex, year 9 during trip:

When I went to France with Seaford Head in 2023 it was an amazing trip with loads of fun opportunities where i made new friends, experienced and explored new cultures. This trip was super beneficial for me to understand ways of living in other countries.

When on a school trip you get to see another side to the teachers you're always around at school.

Due to my visit I made new friend with which I managed to stay in contact with and visited them a couple months later and we still talk to this day. if I was offered the opportunity to go again I would without any hesitation. It has really helped me to understand cultural differences and meeting other people who live differently than us.

Because of this, I would 100% recommend you embark in this wild adventure which you will definitely not regret.

Testimonies from students:

Ethan, year 9 during trip:

It was really good, it was a great experience meeting new people and making friends. It made me want to learn French more, to become immersed in their culture and even go back at some point.

I am still talking to lots of them. It's amazing. It's fun learning French with people your age, learning about what they do, what's different to here in England or what's do the same, what they enjoy. Speaking with the French kids, and maintaining contact made me speak French better when I came back. 100%. When there is a language barrier, we are both forced to speak the opposite language to communicate, so you have to learn their language to speak to them

I definitely want to do A Level French to learn more about France, its culture and the language.

Testimonies from students:

Anna, year 9 during trip:

I really enjoyed the trip, I made some friends that I still keep in touch with. I also went to Paris with my older sister and one of my friends from France this year. It made me enjoy French a lot more because when you see it in person, you realise it is spoken by real people!! By speaking to young people over a long period or time, we became comfortable and it was easier to ask them questions. Also we learnt some slang words which is the real language they speak!! [M. Vidon: Slang is welcome both at GCSE and A level as they make you sound more French!!!]

It made me want to learn more about French culture not just the language. So lessons are more interesting now. It has really motivated me to learn French and I am thinking of continuing at A level so I can reach fluency.

It also allows you to see teachers in a different way and believe it or not they can be a laugh sometimes...
