### **GCSE Photography**

Dear Parents/Carers,

We are pleased to welcome your child into the Photography department at Seaford Head School where we strive to make all students' experience of Photography at KS4 a positive and rewarding one. We have high expectations of our students and value the support of parents/carers in ensuring that coursework and homework tasks are completed.

Throughout KS4 all students are required to keep workbooks, use A1 boards to present their project tasks, as well as an online portfolio, which they will complete homework tasks and project tasks in school as well as independently at home.

To provide students with the high-quality materials they need, we request a contribution to the department.

A £35.00 contribution has been added to ParentPay. We hope that supplying materials is helpful to parents and carers, as well as making it more cost effective for all.

Thank you for your support.

Yours sincerely,

Mrs Stevens  
Photography Lead
